## Instructions for Your Kindle

1. Use the Browser on a computer, tablet, or smartphone to search for a Kindle book.
2. Place a hold if a book is not currently available. If a book is available, click on “Borrow.” Choose a lending period. Tap on “Borrow” again.
3. Click on “Read now with Kindle.” You will be redirected to the Amazon.com website to download the title.
4. Log in to your Amazon.com account if you are not already logged in. Click on “Get Library Book.”
5. Your Kindle will download the book the next time you are connected to Wi-Fi.
6. If you do not have an active wireless connection, you can download and send the book via USB to your Kindle.
7. Titles automatically expire at the end of the lending period. Amazon.com will send you an email three days before a title expires and will send another email after the title expires.
8. Titles can be returned early. Log in to your Amazon.com account and click on “Content and Devices.” Digital Library of Illinois books will be labeled “Borrowed.” Click on the “Actions” button to display a menu with the option “Return this book.” You will still need to delete the book from your Kindle ereader.

## Place a Hold

If a title isn't available for checkout, you can "Place a Hold."

First time users will be prompted for an email address. If you've entered your email address on the website before, your hold will be placed automatically. You'll be notified by email when your hold is available.

Check out your hold by going to your "Loans" page and clicking "Borrow."

## Renew Items

On the Digital Library of Illinois website, go to your "Loans" page. Titles will either have a "Renew" or "Request Again" button. "Request Again" means there are holds on the title and you will be placed on the waitlist.

Renewing a title doesn't mean that it's automatically downloaded to your device. You'll have to go to your "Loans" page and download it again.

TIP: click on  for quick Access to your "Loans" page.
